This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

1. (Currently Amended) A computer-readable medium having stored thereon computer-executable instructions for performing a method in connection with an organization having a plurality of entities, the method for acquiring a resource for at least two of the entities and comprising:

receiving, at a centralized agent of the organization, a request for the resource from at least two of the entities;

reviewing, by the centralized agent, each request for the resource, such reviewing including:

aggregating similar requests for concurrent handling;

considering other non-requesting entities that can be expected to make a similar request;

determining whether any necessary information has not been provided by the requesting entities in the request, and if so returning the request to the requesting entity for same; and

determining whether the request is invalid, and if so returning the request to the requesting entity;

a vendor capable of supplying the resource of the requests to the organization being selected;

designating, by the centralized agent, at least one individual from the organization to work with the selected vendor in developing and supplying the resource of the requests;

producing, by the centralized agent and the designated individual, a single qualified request to be submitted to the selected vendor;

the qualified request being submitted to the selected vendor;

an agreement with the selected vendor being produced regarding terms by which the selected vendor agrees to supply the resource of the qualified request to the organization;

reviewing, by the centralized agent, the produced agreement in view of the qualified request and approving same, the selected vendor thereafter undertaking to develop and supply the resource of the qualified request according to the approved agreement; and

monitoring, by the centralized agent, progress of the selected vendor according to the produced and approved agreement.

2. (Previously Presented) The medium of claim 1 wherein receiving the request comprises receiving a statement of need that includes information necessary for the centralized agent to act upon the request.

3-6 (Canceled)

7. (Previously Presented) The medium of claim 1 wherein selecting the vendor comprises the centralized agent selecting the vendor based on at least one of a suggestion in the request, on a bidding procedure, on experience, on ability to supply the organization for the resource, and on a pre-existing relationship between the organization and the vendor.

8. (Previously Presented) The medium of claim 1 wherein selecting the vendor comprises selecting a plurality of vendors.

9. (Previously Presented) The medium of claim 1 comprising designating an individual from an entity that will be supplied with the resource of the request.

10. (Previously Presented) The medium of claim 1 comprising selecting the vendor by the centralized agent and the designated individual.

11. (Previously Presented) The medium of claim 1 wherein producing the agreement comprises the selected vendor, the centralized agent, and the designated individual working together to reach agreement regarding such terms.

12. (Previously Presented) The medium of claim 11 wherein producing the agreement comprises the selected vendor, the centralized agent, and the designated individual defining milestones and criteria that must be satisfied in developing and supplying the resource.

13. (Previously Presented) The medium of claim 12 wherein monitoring the selected vendor comprises performing a periodic review to determine whether each milestone and criteria is satisfied.

14. (Previously Presented) The medium method of claim 1 comprising the centralized agent reviewing the produced agreement in terms of a member of a group consisting of cost, terms, ability to satisfy needs of the organization, and combinations thereof.

15. (Previously Presented) The medium of claim 1 comprising the designated individual consulting with the selected vendor and the centralized agent while the selected vendor develops and supplies the resource of the request.

16. (Previously Presented) The medium of claim 1 further comprising the centralized agent periodically re-assessing the qualified request for the
